ASSEMBLY STEPS

STEP 1

Place the soap sink upside down and then insert the iron legs into the grooves on the bottom of the soap sink.

The sequence for M6 screw assembly is as follows: first the spring washer, and then the flat washer.

Spring Washer Flat Washer

STEP 2

Align the screws with the holes, and then use a L-shaped hex wrench to secure and tighten them.

Turn the inverted sink upright, with the main opening facing upwards.

ASSEMBLY STEPS

STEP 3

Attach the L-shaped leveling pad if needed

STEP 4

Align the holes of the laminates with the holes of the legs, insert the screws into the holes, and secure them with nuts.

If you need to secure the sink foot to the floor, follow this step

ASSEMBLY STEPS

STEP 5

Take out the hand sanitizer, remove the small rotating button on top, and insert the black button through the top of the sink hole

STEP 6

Rotate the rotation button removed from the previous step back from the bottom and install the bottle with the top half

ASSEMBLY STEPS

STEP 7

Remove the drainer, separate the lower plastic part from the upper metal part, and insert the metal part from the upper part of the water hole under the sink

STEP 8

Install the plastic part of the drainer and the metal part, and put the drain pipe into the plastic part of the drainer

WARM TIPS

1. Avoid contact with strong acids, alkalis, or other chemical substances, except for regular cleaning agents.
2. Please refrain from striking the product to prevent damage.
3. Regularly remove and clean the sink's drain strainer to ensure proper drainage performance.

FAQs

1. What should I do when I received a defected item?

Please do not repack immediately. Please feel free to contact us.

We are eager to help you to make it right

2. Why is my utility sink wobble?

We recommend that you use it against a wall to increase the stability of this utility sink

3. Can I leave out the L-shaped Leveling Pad if I don't need them?

Yes, it's up to you.
